

TRS601 - Example Writing Topics

ENVIRONMENTAL ENGINEERING PART 1

1. The environmental problems that today's world is facing are so great that there is little ordinary people can do to improve the situation. So governments and large organizations should be responsible for reducing the amount of damage being done to the environment.
To what extent do you agree or disagree?
2. Some people think that in order to prevent illness and disease, governments should make efforts in reducing environmental pollution and housing problems.
To what extent do you agree to disagree with this statement?
3. Development in technology has brought various environmental problems. Some believe that people need to live simpler lives to solve environmental problems. Others, however, believe technology is the way to solve these problems.
Discuss both views and give your own opinion.
4. Some think that climate change reforms will negatively affect business. Others feel they are an opportunity for businesses.
Discuss both sides and give your own opinion.
5. When designing a building, the most important factor is the intended use of the building rather than its outward appearance.
To what extent do you agree or disagree?
6. Reducing global environmental damage should be handled by governments rather than individuals.
To what extent do you agree or disagree?
7. Environmental protection is the responsibility of politicians, not individuals as individuals can do too little.
To what extent do you agree or disagree?
8. Global environmental issues are the responsibility of rich nations not of poorer nations.
To what extent do you agree of disagree?
